ABOUT ME

I am a software developer with experience in research and development teams, I like teamwork but I am also very self taught to achieve my goals. I am passionate about everything related to technology, I like to know and learn different programming languages, I have worked with Microsoft technologies such as HoloLens to create immersive and attractive experiences for the area of augmented reality. In addition to my technical experience, I also possess leadership skills and the ability to work in multidisciplinary teams. I am always looking for new challenges and opportunities to learn and grow in my field.

LANGUAGES

SPANISH: Native

ENGLISH: CEFR B1 (Intermediate)
